

## LEED® v4 Credit Support for SkyPly® Hardwood Plywood

### Materials & Resources Credit Building Product Disclosure & Optimization

#### **Environmental Product Declarations (EPD)**

Roseburg can be considered 1 manufacturer (of 5 required by the credit) for any of our hardwood plywood products that are permanently installed in the building, due to our published Type III EPD for Hardwood Plywood. The Roseburg Hardwood Plywood EPD can be downloaded here.

<http://www.roseburg.com/Library/Files/EPDSkyPlyHWPW/>

#### **Sourcing of Raw Materials – Leadership Extraction Practices (Opt. 2)**

##### **Wood products must be certified by the Forest Stewardship Council®.**

Most Roseburg SkyPly Hardwood Plywood panels can be purchased with the option of FSC® Mix Credit Certification. FSC Mix is valued at 100%. You must request FSC Certified product prior to ordering. NOTE: Approved LEED documentation to support this credit does NOT include Roseburg's FSC Certificate. You must provide the supplier's invoice showing that the product purchased was FSC Certified and stating the FSC claim.

To verify the validity of Roseburg's FSC Certification – FSC-C017580 visit

<http://info.fsc.org/certificate.php>

##### **Recycled Content**

SkyPly Hardwood Plywood panels with a composite core material (MDF, Particleboard or CFC) will have a percentage of pre-consumer recycled content. Percentages vary based on the type of core material. A letter stating the recycled content percentage can be provided when a copy of the supplier's invoice is presented to verify the specifics of your product. Veneer core products do not contain any recycled content. Please contact Roseburg's Sustainability Specialist for assistance.

**NOTE: Products sourced, extracted, manufactured and purchased within 100 miles of the project site are valued at 200% of their base contributing cost.**

Manufacturing Location: 10599 Old Highway 99 South  
Dillard, OR 97432

*Due to the nature of hardwood plywood and the sourcing of various species, SkyPly Hardwood Plywood does not meet the requirements for this credit.*

# Indoor Environmental Quality Credit Low-Emitting Materials

## Composite Wood Evaluation

Composite wood, as defined by the California Air Resources Board, Airborne Toxic Control Measure to Reduce Formaldehyde Emissions from Composite Wood Products Regulation (otherwise known as CARB ATCM 93120), must be documented to have low formaldehyde emissions that meet the CARB ATCM for formaldehyde requirements for ultra-low-emitting formaldehyde (ULEF) resins or no added formaldehyde resins.

All Roseburg SkyPly Hardwood Plywood is CARB ULEF Exempt (California Executive Order N-18-038-VC and N-18-038-CC). To verify, go to <https://ww2.arb.ca.gov/resources/documents/nafulef-executive-orders>
