

Formaldehyde Declaration

Roseburg Forest Products Company
Riddle, Oregon
RFPI® I-Joist
APA Mill #1053

Structural prefabricated wood I-joists produced by Roseburg Forest Product Company's plant located in Riddle, Oregon are audited and certified by APA in accordance with APA's Quality Management System (QMS) Program. The APA member mill referenced above, in conjunction with the respective quality audit program, manufactures wood I-joists that:

- Are qualified and manufactured in accordance with ASTM D5456 Standard Specification for Evaluation of Structural Composite Lumber
- Are manufactured with no added urea-formaldehyde resin that is in compliance with ASTM D2559
- Are exempted from the California Air Resources Board (CARB) Airborne Toxic Control Measure (ATCM) to Reduce Formaldehyde Emissions from Composite Wood Products (California ATCM 93120, Section 8)
- Are exempted from the scope of the EPA Toxic Substance Control Act (TSCA) Title VI Formaldehyde Standards from Composite Wood Products Act
- Meet APA Product Specification for E-720 G5 grade for formaldehyde emissions
- Are exempted from HUD regulation for formaldehyde
- Are not applicable to Canadian Formaldehyde Emission from Composite Wood Products Regulations
