

Real Wood Siding Technical Bulletin: CalFire Wildland-Urban Interface Code (WUI)

Certain Roseburg Real Wood Siding products are included in the California State Fire Marshall's Building Materials Listing Program to meet the Wildland-Urban Interface Code (WUI).

Building Materials Listings for Wildland Urban Interface Building Materials

The Office of the State Fire Marshal's (SFM) Building Materials Listing Program (BML) was originally created to mandate that all fire alarm systems and fire alarm devices be approved and listed by the State Fire Marshal prior to sale or marketing within the state. The program later was expanded to include many other materials such as: roof coverings, fire resistive wall and ceiling-floor assemblies, wall finish materials, fire and non-fire related hardware, insulating products, fire doors, fire dampers, electrical appliances and devices. Each product approval and listing is based upon an evaluation of test results that include an analysis of required product performance and reliability features.

Note: See complete listed product details on the Cal Fire website:
